

Automatic Washing Filling Capping Machine (3-in-1) CGF24-24-8

Automatic Washing Filling Capping Machine (3-in-1) CGF24-24-8 8000B/H China Supplier is mainly applied for the filling of beverage. Integrating with washing, filling and sealing, it realizes full automation in the whole process, suitable for polyester bottle and plastic bottle filling of mineral water and purified water. The bottle types applicable for various parts are easily, conveniently and rapidly adjustable. It adopts new micro-negative pressure filling, stable and reliable. Compared with the machines of the same specification, the benefit of this machine is larger.

Technical Parameters

Project Name: Full Automatic Complete Mineral Water 2000-20000bph Production Line				PH≥4.6
				drinking water
Material	Shape	Filling volume	Filling level (mm)	Neck type
PET Bottle	Square or Round Bottle	100-2000ml	Distance from bottle neck	As request
			According request	
Adjustable specifications of the bottle type	【Middle Mould Base】 Bottle diameter ≤105mm Bottle Height≤335mm			
	Customers need to buy additional change-over parts for the different bottles.			
	If using square bottles, then bottle separating system will be added.			
Container Label & Control Mode		Packaging system		Palletizing system
				Manual
Hot Melt Roll-Fed		Packing system	Min, Spec.	Low position gantry palletizer
PVC Shrink Label				Robot Palletizer

Full Label/ Half Label			High position gantry palletizer
Manual / Automatic			Single Arm Palletizer
	Manual	1*2	Manual Palletizer
	Film shrinker	2*3	
	Wrap Around packer	3*4	
	Robert Packing Machine	4*6	
		3*5	
User Ambient Conditions	Temperature : 10~40°C ; Humidity : No dew		
User Electrical Supply Specification	Voltage : 380V±5%, 3phase ; Frequency : 50HZ±1%
