

Irregular Shaped Sachet Packing Machine

This shaped bag sachet packing machine, could be used to pack liquid, cream, sticky product such as cosmetic, syrup, honey, drinks, chemical products and so on.

Features:

1. PLC control system with touch screen, displayed with Chinese and English, can easily set and change the packing parameters. Daily production output and self-diagnostic machine error can be directly seen on screen
2. High sensitive fiber optic sensor can automatically trace color mark accurately
3. Good performance, low noise, clear sealing texture and strong sealing performance
4. The stepper motor control system is adopt for its high precision
5. Poison pump, trimming die and stamper, more stable than the common machine

Technical Specification:

- Type: Servo roll wheel
- Sachet range(need customized) Length: 45-180mm width : 10-140mm
- Max diameter of roll film $\leq \phi 450\text{mm}$
- Max width of film 220mm
- Thickness of film 5-10 micron
- Speed: 30 to 100 sachet/minute
- Power 3.5 Kw
- Voltage: 220V/50Hz
- Outside dimension length1450mm*width1500mm*height2300mm
- Weight of machine 350 kgs
