

*RJD515*580 Semi-Automatic Contact-Heat Thermoforming Machine*

It is suitable for thermoforming BOPS, HIPS, PP, PET PVC, PS, sheet that can produce varieties of blister package and blister tray. For example: curatorial injection tray, oral liquid tray, mobile telephone tray, cookies tray, one-off tableware etc..

Specification

Model	Unit	RJD-515*580
Forming area	mm	515*580
Form depth	mm	100
Production efficiency	cycles/min	5-17
Forming pressure	MPa	0.8
Preheated power	kw	4
Heating plate power	kw	12
Sheet thickness	MM	0.1-1
Air consumption	L/MIN	1200
Machinery size	m	2.75*1.41*2.15
Total weight	T	2.5
