

Semi-Auto 10L Bottle Blow Molding Machine CPG-10L

Semi-auto 10L bottle blow molding machine is the ideal equipment for producing PET containers including bottles of wine, drink, soybean, vinegar and pesticide (less than ten liters). It adopts revolving infrared heating system, high pressure protection with the feature of precisely removing mould, big brand of key parts. All features ensure a perfect and stable performance.

Advantages

1. Energy saving, low production cost
2. Space saving, stable structure
3. Easy operation and maintenance
4. Revolving infrared pre-heat system ensure performs are heated evenly
5. Adopts advanced double-crank clamping and mid- platen moving design
6. Micro-computer controlled
7. Equipped with muffler and oiling system to lubricate the mechanical part

Specification

Model	CPJ-10L
Type	One heater, one blower
Max volume	1000ml
Max product capacity	150-200PCS/H
Voltage	380-240-110V/50-60HZ
Max heating power	10KW
Working pressure	0.8-1.0Mpa
Blowing pressure	1.0-3.0Mpa
Max mould plate dimension	380mm
Max mould thickness	320mm
Clamping force	150KN
Mould opening stroke	280mm
Max bottle height	700mm
Max bottle diameter	210mm
Main machine size	1900×600×1900mm
Oven size	2000×630×1380mm
