

## *Box Type Bag Packaging Machine*

Powders like milk powder, protein powder, rice flour, coffee powder, seasoning, toner, etc. as well as granular materials like forage, coffee beans, etc.

### **Technical Features:**

1. This machine integrates the functions of bag making, filling, sealing, printing, punching and counting, has automatic offset correction function, both the transverse sealing and film pull mechanisms adopt servo motor for transmission so as to guarantee high efficiency of the machine.
2. The side seal former is an independent mechanism, and has an independent offset correction system in the forming and side sealing process, which guarantees the stability of its side sealing and forming mechanism.
3. Control components all adopt well-known international brands with reliable performance; the operator can perform parameter operation on the touch screen.
4. Can make multiple types of bag like four-side-sealed box bag, gusset bag, pillow bag, etc.
5. Can be equipped with automatic welding valve device, and can make the type of bag that needs to be added with vent valve according to material requirements.

## Technical Parameters:

Model	External dimensions (L×W×H) (mm)	Type of bag	Range of bag width (mm)	Packaging speed (bags/min)
<b>SPBP520</b>	2455X1230X1660	Pillow bag, box bag, die cut bag	Front face width: 50~190 Side face width: 35~90 Width of side seal: 5~8 100~420 Bag length range: 100~420mm Max. width of packaging material: 520mm	8~45
<b>SPB730</b>	2550X1420X1930		Front face width: 60~260 Side face width: 45~120 Width of side seal: 5~10 Bag length range: 100~460mm Max. width of packaging material: 730mm	2~45

Model	ID of reel	Max. allowable OD of reel	Compressed air requirement
<b>SPBP520</b>	Φ75mm	Φ450mm	0.6MPa 350L/min
<b>SPB730</b>	Φ75mm	Φ450mm	0.6MPa 350L/min
