

## *Single Station Packing Machine With Linear Weigher ZD-200*

This premade pouch filling machine is specially developed for various premade bags with laminated film. The bag is placed on the top and the position is adjustable. The machine is suitable for different types and sizes of bags and is easy to replace. According to different Weighing Machine, This machine can be used for packaging of different types of materials.

### **Features:**

1. The machine stops running when the safety key interlock switch is pulled out;
2. No bag prompting function;
3. Self-diagnosis function of open the bag failed (The bag can be reused); In that case, the machine will not fill and seal, it will re-take the bag;
4. Positioning (anti-dropping) function of hopper;
5. Warning function of cartridge heater fault ;
6. Warning function of cylinder fault;
7. Warning function which air pressure is not up to standard.

### **Application:**

1. Capacity is basic on bag size, required the bag size is not over the range the machine can do.
2. Suit to packing 1.5kg max or around.
3. Suit to handle granule coffee bean, petfood, candies, etc. So this machine can also be customized as candy packaging machine and cookies packing machine, etc.

**Technical Parameters:**

<b>Model</b>	<b>ZD-200</b>
Bag Material:	Multilayer Composite Premade Bag
	(e.g.: PET/PE)
Bag Type:	3 Side Seal Bag,
	Stand-up Bag
Upgradable Bag Type:	N/A
Size Range:	70mm≤W≤150mm
	100mm≤L≤200mm
Speed:	0~26bags/min
Sealing Type:	Straight grain, pitch is 1mm (Optional reticulate)
Sealing Width:	10mm (5--20mm can be customized)
Voltage:	220V, Single-phase,
	50/60HZ, 1KW
Air Pressure:	0.65Mpa
Air Consumption:	0.2m <sup>3</sup> /min
	(Standard machine, no additional function)
Body Dimension:	1080*535*1010mm
Packing Dimension:	1240*670*1320mm
	(Export non-fumigation wooden case)
