

LF1080 Automatic Continuous Vacuum Sealing Machine

This machine is based on the widely absorb essence of similar foreign products and vacuum machine. According to the latest requirement of market to design on new model with send, vacuum, inflatable (such as nitrogen or other gases), seal, code, in one set, continuous sealing and packing machine.

This machine with Simple and novel structure, beautiful appearance, complete function, high degree of automation, can greatly reduce the labor intensity of the operator

Metain Ftures

1. Suitable for heavy duty packagers.
2. Advanced steel wheel printing technology
3. Adjustable working speed controls to accommodate high-efficiency production line.
4. Adjustable height of delivery table

Technical Parameters:

Model	LF1080A
Function	Air Suction & Bag Sealing
Input Power	110V 60HZ or 220V 50Hz
Power	1405W
