

Auto Weighing Filling And Sealing Machine BS-NW160

This tea bag machine can automatically complete bag making, filling, measuring, sealing, cutting, counting, stepless Speed adjustment and other functions, the configuration of the accessories of this machine can complete shock cutting, date printing, easy features such as tearing.

Feature:

1. It is suitable for inside and outside bag disposable packaging of small particles such as tea, medicinal tea and health tea grass roots.
2. The inner and outer bag pulling film is controlled by stepping motor, the bag length is stable and the positioning is accurate.
3. Using PID to adjust the temperature controller, the temperature control is more accurate.
4. PLC is used to control the action of the whole machine, and the man-machine interface is displayed to ensure the hygiene and reliability of the product.
5. Packaging materials: tea filter paper, cotton thread, composite film and label.

Technical Data:

Model	BS - NW160 all-in-one
Sealing type	The trilateral sealing
Filling range	3 - 10 g(1.6 ~ 26 ml)
Size of Inner Bag	(L) :50 - 70 mm (W) :45 - 80 mm
Size of Outer Bag	(L) :80 - 120 mm (W) :75 - 95 mm
Packaging speed	30 - 40 bags / min
Overall dimension	1750*740*1950 mm
Total weight	500 kg
Total Power	AC220V/ 50Hz /3.7kw
Gas source	≥0.4m /min
