

Automatic Packing Machine with Electronic Combination Weigher HDP-320A/420A/520A

Main features:

1. Finish the function of conveying, metering, filling, bag making, printing, finished product conveying, can also change into open-close metering device according to different materials.
2. Precise metering, high efficiency, no broken material.
3. New design, beautiful appearance, reasonable structure, advanced technology.
4. Imported PLC computer control system, color touch screen, operation is convenient, intuitive and efficiency.
5. With imported servo film transporting system and mark sensor, accurate positioning, perfect packaging.
6. With various auto warning protection function, minimize loss.
7. Various kinds of bag, it could provide the pillow bag, angle fold bag, hang hole bag, link bag, etc.

Optional equipment:

Double tension membrane mechanism, Automatic correction mechanism, punching device, link bag device.

Application:

Suit for the packing of puffed food, biscuit, rice crust, jelly, candy, pistachio nut, apple flake, dumpling, rice dumpling, chocolate, hardware and medicine etc.

Specification machine:

Model	HDP-320A	HDP-420A	HDP-520A
Film Width	Max.320mm	Max.420mm	Max.520mm
Bag Length	80-240mm	80-300mm	80-350mm
Bag Width	50-180mm	50-200mm	50-250mm
Film Roll Diameter	Max.320mm	Max.320mm	Max.500mm
Packing Speed	5-60bag/min	5-60bag/min	10-50 bag/min
Range of Measurement	100-800ml	150-1200ml	150-2000ml
Film Thickness	0.04-0.08mm	0.04-0.08mm	0.05-0.1mm
Power	220V 50/60Hz 2.2KW	220V 50/60Hz 2.8KW	220V 50/60Hz 4KW
Dimension (L*W*H)	1185×935×1240mm	1217*1015*1343mm	1488*1080*1490mm
Weight	350kg	650kg	800kg
