

Automatic Olive Oil Filling And Packing Machine TJ-240J

This Automatic Olive Oil Filling And Packing Machine is a special automatic vacuum capping device for screwing the bottle cap of the glass bottle tinplate. The sauce glass bottle vacuum capping machine includes: main components such as inlet and outlet cans, cans, capper, vacuum chamber and capping head.

Features:

1. Text panel, comfortable appearance, simple setup, beautiful and practical, so people without experience can also operate
2. Using high-tech electronic chip, high precision and clear reading.
3. Microcomputer control mode, electronic memory function; electrical combination control device, which can adjust the tightness according to different caps, and can rotate caps of different shape specifications.
4. Easy to use, safe and reliable, wide application range, especially suitable for special-shaped glass bottle caps.

The main purpose of the Automatic Olive Oil Filling And Packing Machine:

Automatic Olive Oil Filling And Packing Machine are widely used in sauce bottles, cans and high-end health food industries. The advantages of using pneumatic and electrical programming controls instead of mechanical transmissions are: the equipment can be clean, avoiding the impact of lubricating grease on the production environment and products, more important It is possible to monitor and flexibly adjust the index parameters that the product must meet, such as vacuum degree and screwing torque. Pneumatic device, flexible and convenient to operate, greatly improving the efficiency of the enterprise.

Technical Parameter:

Model	TJ-240J
Packing speed	30-60bags/min
Making bag size	W:20-140mm L:30-170mm
Packing volume	No more than 0-30ml
Voltage	220V
Overall dimension	250kg
Weight	750x850x1750mm
