

## *Automatic Piston Filling Honey Machine DS-350H*

This liquid filling machine is specially designed for making honey spoons, and molds of corresponding sizes can be customized according to customer needs.

### **Features:**

1. Stable, reliable, safe, with alarm function.
2. Variable frequency control, the filling time can be adjustable.
3. The configuration elements adopt the international famous brand.
4. High filling accuracy, suitable for all kinds of cups
5. Alarm and shutdown when gas supply is low.
6. Easy to clean and maintenance.

**Technical Parameters:**

<b>HONEY SPOON FILLING SEALING MACHINE</b>	
Packing Speed	600~900 spoons/hour (output 1 spoon) 1200~1800 spoons/hour (output 2 spoons)
Voltage	220V
Machine Power	1.2KW
Air Pressure	0.5MPa-0.7 MPa
Filling Range	7~15 g
Machine Size	1250*1250*1650 mm
Machine Weight	650KG
