

Link-420LY Fully Automatic Measuring Vertical Angled Bag Packaging Machine

Performance and features:

1. Chinese and English touch screen display, intuitive operation, simple.
2. PLC computer control system, more stable operation, can adjust any parameters without stopping.
3. Can store ten groups of parameters, replace the variety more accurate.
4. Servo motor pull touch, more accurate positioning.
5. Independent temperature control system, accuracy up to $\pm 1^{\circ}\text{C}$.
6. Horizontal and vertical sealing temperature independent control, can be good for all kinds of composite film, PE film and other packaging materials.
7. The variety of packaging style, back seal, insert Angle, even bag, punching and so on.
8. Bag making, sealing, packaging and printing date can be completed in one time.
9. The working environment is clean and the noise is small.

Technical Parameters:

Model	Link-420LY
Blanking way	Rotor pump
Measurement	500-1000 ml/pack
Power	4.5 kw
The bag size	L: 80-300 – mm W: 50-150 – mm
The bag type	Angled Back Seal Bag
Production speed	10-20 bags/min
The control mode	PLC + touch screen
Enclosure	Stainless steel or plastic spray
Air supply	0.6- 0.8 Mpa 30L /min
Voltage	3Φ 380 v, 50 hz
Gross weight	500 kg
Size	L 1820mm* W 1950mm* H 2200mm
