

LIYI-200P Shrink Sleeve Equipment

Features

- 1: This sleeve machine uses special mechanisms to shape and seal each sleeve reliably and accurately around the product at speeds up to 300 sleeves per minute.
- 2: Suitable for different diameter , height and shape of bottles by changing machine parts
- 3: Adjustable feeding sensor, precision lock up sleeve.
- 4: Digital gauges and scales with pointers allow for a quick, no-tool changeover in as little as 15 minutes.

Technical Parameters

Type	LIYI-200P
Speed	Max300p/m
Input power	3kw
Electric power	AC3-PHASE 220V/380V
Height of shrink label	25mm~280mm, special can be designed
Thickness of shrink label	0.035mm~0.13mm (PVC, PET, OPS)
Shrink tunnel	Steam/electric unit
